

Clarifying the Message: Advocating for Change

Wednesday, September 26th
9:00 a.m. - 12:00 p.m.

With science and public opinion on our side, why is there still debate over policies, like comprehensive sexuality education, that educate and improve the lives of young people? How can we combine storytelling with facts to create a compelling message? It's time to learn more about how to frame the needs of adolescents in our communities in a way that connects with the general public and promotes science based public policies.

Featured speaker Glynis Shea works as the Communications Coordinator at the Knopka Institute for Best Practices in Adolescent Health at the University of Minnesota. She interacts with educators, youth, and medical professionals to build public will for youth through effective communications.

Attend this Sex Ed for Life workshop to learn how what we say makes a difference.

To RSVP for the event, please fax the completed registration form or email registration info to:
Amy Kodet at publicpolicyintern@moapp.org
Fax: 651-644-1417 **Phone:** 651-644-1447 x 17.

Sex Ed for Life is coordinated by the Minnesota AIDS Project (MAP) and the Minnesota Organization on Adolescent Pregnancy, Prevention and Parenting (MOAPPP). To learn more about the Coalition and to become a member, visit www.sexedforlife.org
